DIFFERENT COLORS
DIFFERENT FEELINGS

"Yi Tian Tu Long Ji" is the golden memory of the post-80s generation. This die-cast steel foot refines the design element of "Yi Tian Jian", which means that the team battle is invincible and invincible!

Simplicity is not the same as simplicity. Any detail is a unique artistic agglomeration, just like white light contains seven colors, dewdrops shine out of the world, and leaves reflect the four seasons. The sun sets a beautiful color, which reflects the joy and incitement of the heart - a glimpse of it, you can rush into the happiness of tomorrow.

Independently developed ABS slide type wire box, the line and card line can be solved perfectly..

The surface of the multi-functional support foot is gray electrostatically sprayed, and both strong and weak electricity can be output from here.

The steel foot and the adjusting foot are die-casted once, and the surface is plated with gun color and crystal-like texture, which makes the product's artistic sense and value sense the greatest sublimation.
